## Objective

Recent Computer Science graduate with a passion for software development, seeking a challenging and dynamic full-time position to apply technical skills and knowledge in programming and problem-solving.

## Education

### Bachelor of Engineering in Computer Science and Technology

Northwestern Polytechnical University (西北工业大学), Xi'an, China

Sep 01, 2020 – July 15, 2024

- Relevant coursework: Algorithms, Data Structures, Software Engineering, Database Systems.
- Awards: Academic Volunteer, Presidential Scholarship, etc.
- Activities: Innovation and Entrepreneurship Club, ICPC, Engineering Professional Development.
- Skills: Leadership, Club, Mentoring, Cultural Activities, Volunteering

## Skills

- **Programming Languages:** C++, Java, Python
- **Web Development:** HTML, CSS, JavaScript, React, Node, Express
- **Databases:** MySQL, MongoDB
- **Software Development:** Agile methodology, Qt, Git, GitHub
- **Languages:** English, Chinese, Bangla, Hindi, Urdu
- Problem-solving and algorithmic thinking
- Strong analytical and critical thinking skills
- Excellent communication and teamwork abilities

## Experience

### Software Development Intern

WorkGPT, Shenzhen, China

Sep 01, 2023 – Oct 30, 2023

- Collaborated with a cross-functional team of developers to design and implement a new feature for the company's flagship product.
- Conducted comprehensive testing, identifying and resolving software defects to ensure the highest quality of the final product.
- Assisted in the development of documentation for codebase, APIs, and project specifications, contributing to improved knowledge sharing among team members.
- Engaged in daily stand-up meetings and participated in Agile development sprints to enhance project management and teamwork skills.

### IT Support Intern

DataSoft, Dhaka, Bangladesh

March 01, 2022 – May 30, 2022

- Provided technical support to end-users, troubleshooting hardware and software issues, ensuring timely problem resolution.
- Assisted in the implementation of a system-wide software upgrade, collaborating with the IT team to minimize downtime and optimize performance.
- Conducted user training sessions on new software applications, resulting in increased user proficiency and a smoother transition to the updated system.
- Assisted in maintaining and updating IT documentation, contributing to an organized and efficient knowledge base for future reference.

## Projects

### Weather App

- **Description:** Built a weather application that retrieves weather data from an API and displays it to users based on their location input.
- **Technologies Used:** JavaScript (Node.js), HTML, CSS
- **Project Link:** [GitHub Repository](#)

### Online Portfolio

- **Description:** Created a personal portfolio website to showcase projects and skills, demonstrating proficiency in front-end development.
- **Technologies Used:** JavaScript, HTML, CSS
- **Project Link:** [GitHub Repository](#)

### Library Database Management System

- **Description:** Developed a system for quick searching of books and periodicals.
- **Technologies Used:** JavaScript, HTML, CSS, SQL
- **Project Link:** [GitHub Repository](#)

## Honors

- Member Of the Volunteer Service Center, 2021
- 4th Braia Space Exploration Summer Camp, 2021
- Winter Holiday Language and Cultural Study Challenge, 2021
- Chinese Bridge online program offered by Shaanxi Normal University, 2021
- An International Student Academic Volunteer, 2022
- AI Summer Camp, 2023
